

EZ Mail Mover™

MAIL TRAY STORAGE AND TRANSPORTATION SOLUTION

Ideal for staging, transporting, and storing materials for use in an inserting or presort environment.

- Two sizes: 15 or 27 tray capacity.
- Adaptable to any mail operation.
- Durable stainless steel construction.
- Allows removal of individual trays.
- Accessible from both sides.

Ideal for staging second pass items.

EZ Mail Movers™ are high quality, heavy duty carts, built around a welded stainless steel frame and shelf supports. This mobile mail system will store up to 27 trays of material, or approximately 19,000 pieces of mail in only seven square feet of floor space.

At 43" wide, 25" deep, and 72" high, the EZ Mail Mover can fit through a standard doorway, eliminating movement restrictions. The Mail Mover also accommodates any and all letter sized mail trays in use, or used by the US Postal Service. Easy access from either side of the cart makes the EZ Mail Mover a versatile, and efficient organizational tool.

Heavy duty, double ball bearing casters make the EZ Mail Mover easy to move on any surface. Optional caster brakes are available.

The 15 tray EZ Mail Mover™ has all the same heavy duty features as the original full size EZ Mail Mover, except it is designed for use by smaller mail operations. Dimensions for the "half" EZ Mail Mover are 43" wide, 25" deep, and 43" high.
