

EZ StorDrawer™

TM

EXTENDING MAIL DRAWER STORAGE SOLUTION

The EZ StorDrawer™ extending mail drawer system is designed to be used as a stationary mail traying system with or without an overhead conveyor or as a mobile mail tray cart

- Uses full-extension premium slides with steel ball bearings so shelves will open and close smoothly and effortlessly.
- Extended EZ StorDrawer™ shelves allow full access to mail trays for loading.
- Each EZ StorDrawer™ shelf has built in tag holders to properly identify sorter bins.
- EZ StorDrawer™ models are available for all types of Multi Tiered sorters.
- Extra mail tray and sleeve storage on bottom shelf.
- Heavy duty, double bearing casters with brakes for easy maneuverability.
- Welded brushed stainless steel construction provides years of maintenance free service.

EZ StorDrawer™

Shown as stationary system with conveyor

EZ StorDrawer™ will enhance the automation in your mail sorting operation, providing an organized method of staging, storing and sleeving sorted mail generated by your sorter. Each mail tray is located directly across from the vertical sort bins. This "one to one" relationship minimizes the chances for incorrectly trayed mail. As mail is swept from the sort bins, it is loaded into the corresponding mail trays. Rejection by the US Post Office due to incorrectly trayed mail can be very costly to your organization in both time and effort.

The EZ StorDrawer™ can be used as a stationary mail drawer staging and retrieval system with an optional conveyor mounted on top, as shown above, or a mobile system without conveyors, as pictured below. Used either way, mail is handled in a faster and more organized manner. Easy to read bin tags identify the proper sort bin for each mail tray. Each EZ StorDrawer unit has three or four extending shelves that accommodates four or five mail trays each, depending on model. Each shelf fully extends for easy mail tray access.

The EZ StorDrawer™ is constructed with welded stainless steel, that will provide years of dependable service to any operation. Used as a cart, the EZ StorDrawer™ includes heavy duty double bearing casters, with brakes, for easy maneuverability. Models available for all sorters.
